

# Pavel Gumennikov

**Date of birth:** 04 January 1998

**Location:** currently Thailand (UTC/GMT +7)

**Email:** [cespaul@protonmail.com](mailto:cespaul@protonmail.com)

**Telegram:** [@CesPaul](https://t.me/CesPaul)

**Github:** [github.com/CesPaul](https://github.com/CesPaul)

**I'm open to relocation and remote vacancies.**

## Professional experience

**2021-2023 Android Developer:** [profsoft.ru](https://profsoft.ru) / [profsoft.ae](https://profsoft.ae)

- Medical application for paramedics and physicians to conduct initial medical examinations and integrate with BLE medical devices.
  - Created the project from scratch
  - Developed BLE interactions with various medical devices
  - Implemented caching data and synchronization.
- Mobile application for food delivery drivers working for a famous local brand.
  - Implemented the display of checkpoints for orders.
  - Developed offline mode, caching and data synchronization.
- [Bystronom](#) (100K+ downloads) Branded mobile application of the supermarket chain.
  - Maintained features such as product search, filtering, and checkout process.
- [Pervomaster](#) (5K+ downloads) The dealer of the largest brands.
  - Developed and maintained features such as product catalog, shopping cart, and order tracking.
- [Marya](#) (5K+ downloads). The well-known Russian furniture brand.
  - Developed and maintained features such as store locator, product catalog, and wishlist.

- Integrated Yandex MapKit for displaying store locations and implementing a map view.
- Improved app performance and reduced app crashes by optimizing image loading and implementing caching.
- **AntiAnxiety (5K+ downloads) The self-help application for anxiety and anxiety disorders.**
  - Conducted a redesign of the app and refreshed local content.
  - Worked with ExoPlayer2 for local video playback.
  - Implemented the TableView library for displaying data.

#### **2020-2021 Android Developer: [pixlpark.ru](http://pixlpark.ru)**

I developed and maintained features for many app variations with different configurations.

The main feature was an in-app design editor for ordering prints on T-shirts and other printing productions.

- [Yarkiy photomarket](#) (10K+ downloads) The app for ordering prints of photos.
- [Web-to-Print Pixlpark](#) The demo mobile application that can be created for any site on the Pixlpark cloud platform.

#### **2020 Intern Android Developer: [digitalnomads.software](http://digitalnomads.software)**

This is my start in Android Development. I worked with the team, fixed bugs, maintained existing features and tried to add new features to multiple projects.

#### **Core skills**

- SOLID, OOP
- Kotlin, Java
- Android Studio
- Android SDK
- Gradle, ProGuard
- Material Design
- Git, GitLab, GitHub, Git Flow
- MVP, MVVM, Clean Architecture
- Firebase: Crashlytics
- OkHttp3, Retrofit2, Ktor (a little bit), REST API
- Fresco, Glide, Coil
- Coroutines
- Room
- Dagger2, Koin

- Yandex MapKit, MapBox
- XML, JSON
- Jetpack Compose (a little bit)
- JUnit
- JIRA

## **Education**

2015-2019 Tomsk State University of Control Systems and Radioelectronics  
- BSc Informatics and Computer Engineering
